No. 500*B.*

FROM C. A. SAMUELLS, ESQ.,

Offg. Secretary to the Board of Revenue, L.P.,

TO THE SECRETARY TO THE GOVERNMENT OF BENGAL,

FINANCIAL DEPARTMENT.

Dated Calcutta, the 24th July 1885.

SIR,

STATIONERY.

H. A. COCKERELL, ESQ., C.S.I.

I AM directed by the Board of Revenue to submit, for the information of Government, the following report on the working of the Stationery Department in the year 1884-85, so far as the transactions affect the Government of Bengal, together with the usual statements A to D.

2. *Statement A.*—This statement compares the total quantity and value of each article of stationery issued during the past two years from the Calcutta store to offices in Bengal, as well as to the Government of India and other provinces. There has been, it will be seen, a net increase of Rs. 2,81,293 in the total value of stationery issued in 1884-85, as compared with the issues of 1883-84, when there was a net decrease of Rs. 61,566. The increase during the past year is said to be due to the increased demands of the public service, and also to indents for stationery that were in arrears towards the close of the year 1883-84 having been complied with in the following year, during which the work of the Stationery Office was kept better in hand by the aid of the extra establishments temporarily allowed to the Superintendent. The following abstract statement shows the fluctuations in the total value of each class of articles issued during the year under report, as compared with the previous year :—

CLASS OF ARTICLES.	Value of issues in 1883-84.	Value of issues in 1884-85.	Increase.	Decrease.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.

Total	14,62,516 15 1	17,74,848 9 11	3,29,259 2 11	16,927 8 1
Water-marked paper	1,40,334 9 0	1,18,296 4 4	.....	31,038 4 8
GRAND TOTAL	16,11,851 8 1	18,93,144 14 3	3,29,259 2 11	47,965 12 9
Net increase	.....	.....	2,81,293 6 2	.....

The net increase in the issues already noticed is chiefly perceptible under the heads printing paper, book-binding materials, writing paper, miscellaneous articles, coloured paper, bound books, and buff or " badami " paper.

3. In drawing paper the decrease is less than 2 per cent., and does not require special notice. The value of writing materials remained almost unaltered, and in buff or badami paper there has been a small increase of little over 4 per cent. As regards the remaining items of increases and decreases shown in the foregoing statement, the following explanations have been submitted by the Superintendent—

" *Writing paper* exhibits an increase of Rs. 32,481. Hand-made paper was used more largely to the extent of 637 reams, and as this paper is still preferred in many of the higher offices, there is a difficulty in controlling the issues. Of the machine-made and cartridge papers

used for books of account and printed forms of returns, &c., 6,479 reams have been issued in excess of the quantity shown for the previous year. Yellow-wove cartridge, which was made to my special order by the Bally mills, is taking the place of much of the English blue-laid and cream-wove papers. Of the cream-wove foolscap in general issue for correspondence, the total issue exceeds the quantity of the previous year by 1,267 reams. The larger sized and heavier cream-wove papers, from 30 to 58lbs., much used for Military and Ordnance forms, show a remarkable decrease, which is to be attributed to the substitution of country cartridge paper to some extent since the correspondence with the Controller of Military Accounts referred to in my last report.

"*White printing paper* exhibits an increase of Rs. 1,12,235, being the value of 20,320 reams of paper issued in excess of that of the previous year. The following comparative statement of the issues of white printing paper to Government presses during the year shows an increase both in quantity and value to the extent of 13,633 reams and Rs. 78,407. The Government of India, North-Western Provinces, Punjab, and Aligurh postal presses consumed considerably larger quantities than in 1883-84. Of the entire quantity, 71,868 reams country white paper to the extent of 8,870 reams was issued.

Presses.	Issues in 1883-84.		Issues in 1884-85.		Increase.	Decrease.

Total ...	58,235	2,72,487	71,868	3,50,894	80,440	2,033

"The extent to which the other kinds of paper have been used by the several presses as compared with 1883-84 is shown below. Hand-made and cream-wove paper have somewhat exceeded. The consumption of country paper (half bleached) does not show much marked difference. Bengal and the North-Western Provinces consumed rather more, and the rest consumed less, especially British Burmah.

Presses.	Hand-made paper.				Blue-laid and blue-wove paper.				Cream-wove paper.				Half-bleached or buff country paper.

"*Coloured paper* shows a marked increase in its consumption, being 2,352 reams in excess of that of the previous year, representing an excess value of Rs. 18,486, being more largely used by the Railway and Telegraph Departments. Surface-coloured paper, which was included under this head in the last report, has been transferred to the head of binding paper.

"*Binding paper* has been in greater demand. Large supplies have been taken by the Railways, and it is used more extensively instead of kharooah cloth binding which was objectionable, and has been done away with at the Presidency Jail. It is also issued to some extent in place of binding cloth, in the consumption of which there is a decrease.

"*Other papers* exhibit on the whole a small excess of Rs. 1,607 over that of the previous year. The 32lb. white blotting has been more largely consumed in the general demands of the public service; the 30lb. and 50lb. brown super-royal glazed is a new paper specially made at the Bally Mills for large envelopes, and will prove cheaper and stronger than the paper hitherto used. The 100lb. brown super-royal was specially required by the Superintendent, Aligurh Postal Workshop and Press

"*Drawing materials.*—There is an excess in the value of the issues of Rs. 4,934 over the previous year. The chief items being tracing cloth and water colours for the Railway Extensions and Public Works Departments.

"*Book-binding materials.*—The total expenditure under this head is Rs 2,01,690, which is in excess of that of the previous year by Rs. 1,10,696, and the main increase is owing to the diminished issues of mill-boards, straw-boards, and paste-boards in 1883-84, when

the supplies failed, as noticed in my last annual report, English and country leathers also show a considerable increase, having been largely issued to the Contractor for Government of India stock forms, by whom, as I understand, a great number of books are bound in full, instead of being half-bound with leather.

"*Bound books.*—The stock of these was also much reduced in 1883-84, owing to the difficulty in procuring mill-boards and straw-boards, and issues have, in consequence, considerably increased during the current year. The excess expenditure of Rs. 13,959 is also due in some measure to greater demands, the Eastern Bengal Railway, which commenced to draw its supplies of stationery from Government in August 1884, having alone indented for 2,660 books; this will afford an index of its other requirements.

"*Miscellaneous articles* show an issue of Rs 19,696 in excess of the previous year. Envelopes, wax-cloth, parchment, and scissors, large and small, were issued in larger quantities. The Chubb's padlocks and four lever locks form a new and expensive article of provision and supply to the treasury officers in Bengal.

"*Printing materials* exhibit a decrease of Rs. 6,902, compared with the issue of the previous year, chiefly in the item of printing-ink, in which chiefly the amount has fallen short.

"*Copying press materials* have been issued since 1882-83. The value of the issues is less by Rs. 4,875 than that of the previous year. Some portion of this saving is caused by the articles having been indented for from England."

"*Water-marked paper*, used with court-fee stamps for judicial plaints and applications, exhibits a decrease of 3,562 reams to the value of Rs. 31,038, which is no doubt owing to the use of impressed sheets now provided. The sale proceeds of the quantity issued during the year may be estimated to yield a profit of Rs. 89,563 as shown on the margin. The sales are checked as usual in the Stamp Department. Of the other kinds of water-marked paper that were used for bills-of-exchange shows a considerable decrease, the new hundi stamps having taken their place."

	Rs.	A.	P.
Sale proceeds of 27,558 reams, at 1 pice a sheet, or Rs. 7-8 per ream	2,06,685	0	0
Cost price of ditto, at Rs. 4-4 per ream ...	1,17,121	8	0
Difference ...	89,563	8	0

4. The statement "B" exhibits in one view the charges on account of the total issues of stationery, local purchases, cost of establishment, contingencies, and receipts from the sale of stationery and of waste paper, &c. The expenditure shown on account of stationery issued agrees with the total amounts given in statement A, and calls for no further remarks. There has again been an increase of Rs. 1,47,968 or 31 per cent. under the head of "local purchases," the figures for the past two years 1883-84 and 1884-85 being Rs. 4,74,890 and Rs. 6,22,858 respectively. The increase is large, both in country and English articles, the former owing it is said to the large production of country papers as shown in statement C noticed further on, and the latter to the necessity for procuring in the local market straw-boards and other stores of which the stock was exhausted, and also note paper, envelopes and other special articles required for the Viceroy and other State Officers, the supplies of which sent out from England were either unsuitable or late in arriving.

5. Exclusive of paper, country articles were purchased under contracts during the year under report to the value of Rs. 1,10,988, which is more than that of the previous year by Rs. 47,819. The Superintendent of Stationery states that the principal articles actually received within the year are those noted in the margin, and that they were supplied generally in large quantities, and of better quality than in the year 1883-84, every encouragement being afforded to the manufacturers. The full particulars of the country articles received into the Superintendent's store during the past two years are contained in Part II of statement C. The Superintendent reports that the production of mill-boards, which promised to be a success, has failed owing to the great reduction in prices in the Europe market, and the much cheaper substitution of straw-boards which have with advantage been issued more largely in place of mill-boards. Country paste-boards, white on one side and brown on the other, made of Bally paper, are stated to have been economically issued for printed railway labels, &c., in place of English white boards.

6. During the year under report there were no changes in the Superintendent's establishment of a permanent nature. The increase of Rs. 1,784 over that of the previous year is owing to the annual increments in the graduated scale of salaries, the full salary drawn by the Assistant Superintendent on his return from leave, the entertainment temporarily of the extra establishment sanctioned by Government to bring up arrears, and the pay of the Store Examiner's Department, having been charged for only nine months in the previous year. A proposition made by the Superintendent for reorganizing his establishment is now under the consideration of the Committee appointed by Government in order No. 276T—F, dated 17th April 1885, to enquire exhaustively into the working of the Stationery Department in all its branches.

7. In the total expenditure under the head of contingencies a small decrease of Rs. 207 is noticeable, owing to the increase of Rs. 2,703, shown under the heads "godown rent" and "other contingencies" having been counterbalanced by the reduced charges incurred on account of "cooly hire," "packing cases, &c.," "freight," and "postage." The increase in "godown rent" has been caused by the hired godowns in Hare Street having been engaged during the year under review for a longer period than in the previous year, while the purchase of 183 godown horses at a cost of Rs. 1,800 explains the increase under "other contingencies." The reasons given for the decreases above referred to are (1) the less frequent necessity for moving packages in consequence of fuller accommodation, (2) the more extensive use of converted English packing cases, and (3), the absence of certain exceptional charges incurred on account of freight in 1883-84.

8. The receipts, including the commission of 10 per cent. from stationery sent to officers not entitled to receive supplies free of charge, show a decrease of Rs. 4,832 as compared with the previous year. The reason assigned by the Superintendent for this decrease is that the District Local Boards in the North-Western Provinces, which paid for their stationery during 1883-84, received free supplies under the orders of the Government of those provinces. In the amount realized from the sale of waste paper and other unserviceable articles, there was also a decrease of Rs. 1,357, which is ascribable to the fact that the obsolete forms, canvas, and deal planks were not sold during the year of report, as reasonable offers for them were not received.

9. The statement "C" shows the quantity and cost of the several kinds of country papers, viz., badami or buff, white or bleached, white and yellow wove, half bleached, and brown cartridge, coloured, arsenicated, and white blotting paper, and envelopes, issued in 1884-85 in place of English paper and envelopes of the same size and description, and the saving effected thereby. The total cost of the different descriptions of paper and envelopes obtained from the local paper mills is Rs. 4,34,036 in the year under review as compared with Rs. 3,41,633 in the preceding year, and the estimated saving effected (exclusive of the nominal loss of Rs. 1,111 shown under coloured paper) with reference to the value of English paper and envelopes displaced is Rs. 45,712. From the Board's No. 711B, dated 24th October 1884, it will be seen that the arrangements for the supply of a better quality of country-made envelopes have been made by the Superintendent. Arsenicated paper prepared at the Cuttack Jail has been issued to a very small extent, viz, 317 reams valued at Rs. 743 in 1884-85, against 2,495 reams valued at Rs. 5,026 in 1883-84. It has been reported by the Superintendent that the quality of the paper was still irregular and inferior and that the price was rather more than that of the Bally paper, which is apparently not so subject to the attacks of insects as the native paper formerly in use.

10. Agreeably to the resolution of the Government of India No. 1759, dated 30th June 1883, enclosed in Government order No. 1335T—F, dated 10th July 1883, tenders were invited and arrangements were made by the Superintendent of Stationery with the paper mills at Lucknow and Scindia for the supply of paper direct to the presses at Allahabad, Agra and Alighur. The Titaghur mills also came into existence during the year. The quantities and the value of paper supplied by the several mills are given in the margin. Engagements were also entered into by the Superintendent in March last with the approval

Mills.	Quantity.	Value. Rs.
Bally	82,367	3,44,704
Scindia	28,023	1,13,480
Lucknow	14,223	50,918
Titaghur	58	616

of the Board for the supply, during the current year, of paper in the proportions and at the rates noted below :—

Description of Paper.	Bally Mills.		Titaghur Mills.		Scindia Mills.		Lucknow Mills.	
	Quantity in tons.	Rate per lb.	Quantity in tons.	Rate per lb.	Quantity in tons.	Rate per lb.	Quantity in tons.	Rate per lb.

Total ...	852	.....	265	.....	407	.....	115	.....

On the working of these contracts the Superintendent has reported as follows :—

"The result will be a considerable saving to Government, amounting to Rs. 20,162-14-3 in the course of one year's transactions, as compared with the prices previously paid, arising chiefly from avoidance of the expense of carriage. I have reason also to believe that the provision of the paper will be efficiently as well as economically conducted by maintaining competition, while encouraging an enterprising industry in other provinces without injuriously affecting the long-established Bally Mills Company.

The quality of the paper tendered is fair as a first adventure, though not in all respects equal to the produce of the Bally Mills, but there is every prospect of improvement, and a wider field exists for developing the resources of the country in the several localities, in this important branch of trade with the help afforded by Government. It is probable that these supplies may hereafter be extended with advantage to some places in the Punjab."

11. Statement D is a comparative statement showing the increase and decrease of the total value of stationery supplied in the past two years to each officer under the Government of Bengal. The officers who took stationery of the value of Rs. 100 and upwards are separately shown in the statement, while those whose supplies were below that amount are entered together. Exclusive of the water-marked paper used with adhesive court-fee stamps and the salt boat-note used by the Collector of Customs, Calcutta, the total expenditure amounted to Rs. 4,73,467 in 1884-85, against Rs. 3,44,728 in 1883-84, showing a net increase of Rs. 1,28,739. The details of these figures are given in the following abstract :—

Grand Total ...	3,44,728 5 0	4,73,467 8 0	1,34,683 4 0	5,944 1 0

12. Very marked increases are noticeable under the heads "Printing" and "Provincial State Railways," which together show an excess expenditure of Rs. 1,19,050. There was a larger outturn of forms from the presses, and the Eastern Bengal and other State Railways were supplied for the first time during the past official year. The supply of padlocks now for the first time issued from the Stationery Office has caused an increase of Rs. 3,966. With the exception

of education, opium, medical, public works cess, marine and minor departments, the other remaining departments also exhibit a considerable increase.

13. The vernacular department, which includes, as was stated in the report for 1883-84, offices supplied with stationery for which payment is made out of contingent allowances, shows a further increase of Rs. 249 or more than 48 per cent. in the year under report. The only officers from whom indents for this department were received are the District Judges of Bhagulpore, Dacca, and Midnapore, and the Collector of Burdwan. The increased facilities offered by the Accountant-General's circular published with the Board's Circular No. 4 of May 1885 will probably cause in future an increase to an appreciable extent in the demands for the department under notice.

14. The statement given below represents the value of stationery issued to the several Governments and administrations for Provincial and Imperial services respectively.

Government.	Value of stationery issued in 1883-84.	Value of stationery issued in 1884-85.	Increase.	Decrease.
Provincial Service.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Bengal	3,44,400 10 0	4,73,093 7 0	1,28,692 13 0	.....
North-Western Provinces and Oudh	1,61,416 5 0	1,90,883 13 0	28,467 8 0	.....
British Burmah	81,080 11 0	73,575 8 0	.....	7,495 3 0
Punjab	49,893 15 0	81,193 15 0	31,300 0 0	.....
Central Provinces	14,636 2 0	19,768 14 0	5,132 12 0	.....
Assam	18,019 6 0	20,898 1 0	2,878 11 0	.....
Bombay	1,209 2 0	544 15 0	.....	664 3 0
Madras	3,305 7 0	22,705 5 0	19,399 14 0	.....
Total ...	6,73,941 10 0	8,81,663 14 0	2,15,871 10 0	8,149 6 0
Imperial Services.				
Imperial Department of the Government of India ...	7,23,349 1 0	8,30,599 5 0	1,07,250 4 0	.....
Grand Total ...	13,97,290 11 0	17,12,263 3 0	3,23,121 14 0	8,149 6 0

It will be seen from the above figures that the values of stationery issued both for Provincial and Imperial services have materially increased during the year. The net increase under the former head amounts to Rs. 2,07,722 or 30 per cent., while that under the latter amounts to Rs. 1,07,250 or nearly 15 per cent.

15. The number of forms (including books) printed and issued in the last two years is shown in the following statement :—

Year.	Number of indenting Departments.	Number of standard forms.	Number of special forms.	Number of forms and books printed.	Number of indents received and complied with.	Total number of forms and books issued on indent, inclusive of special and standard forms.
1883-84	49	7,085	4,292	59,376,563 (Inclusive of 148,579 books.)	5,880	55,761,595 (Inclusive of 189,508 books.)
1884-85	49	7,340	3,233	76,212,136 (Inclusive of 175,110 books.)	6,760	64,698,390 (Inclusive of 296,012 books.)

There has been a very large increase in the year under review in the number of forms and books printed and supplied, as well as in the number of indents received and complied with. The number of indenting departments remained the same, and in the number of standard forms there has been an increase of 255. The number of special forms shows a decrease of 1,059 or nearly 25 per cent.

16. The charges during the year amounted to Rs. 37,762, of which Rs. 11,526 were on account of establishment. Under this head there is an excess charge of Rs. 1,058 owing chiefly to the extra establishment sanctioned by Government order No. 2768T—F, dated 8th October 1884, for the Form Branch of the Calcutta Stationery Office. An increase of Rs. 995 has also occurred for carriage, packing, and contingencies, the expenditure under all these heads being Rs. 26,236 in 1884-85, against Rs. 25,241 in the preceding year.

17. The figures given below show the amounts recovered during the years 1883-84 and 1884-85 by the sale of service-books, excise account forms, applications for copies and information, and other forms sold to the public.

	1883-84.	1884-85.	Increase.	Decrease.
	Rs.	Rs.	Rs.	Rs.
Sale proceeds of service-books and forms sold to the public. ...	7,024	10,566	3,542	.....
Price of forms supplied to local funds	25,535	12,992	.....	12,543
Total ...	32,559	23,558	.....	9,001

The total sales appear to have again decreased. The falling off amounts to Rs. 9,001, and is the result of the discontinuance of the issue of Municipal forms from the Superintendent's store.

18. During the year under report, a representation made by Mr. C. E. Hamilton, in connection with the procedure followed by the India Office in obtaining supplies of paper, and the offer made by him to contract for the supply of paper and of printed forms required in India, occupied the attention of the Board, and a report on the subject was submitted to Government with the Board's letter No. 373B, dated 5th June 1884.

19. The submission by heads of Departments in Bengal, of the consolidated indents for stationery prescribed in Financial Resolution No. 3675, dated 30th September 1875, has been discontinued with reference to the orders communicated with Government order No. 1954, dated 22nd November 1884.

20. The Director-General of Stores in England was addressed by the Superintendent of Stationery, in reference to some papers received here without either being cameoed or water-marked. In explaining the omission, the Director-General stated that water-marking adds nothing to the cost of paper, whereas cameoing is an extra expense, and a cause of delay besides adding considerably to the labour of inspection. As it was in accordance with the Director-General's recommendation that the Board in December 1881 sanctioned cameoing in preference to water-marking, they have, under the circumstances now reported, approved the water-mark instead of the cameo for all writing paper of foolscap size and upwards.

21. Mr. W. H. Ryland was in charge of the Calcutta Stationery Office throughout the year of report, and discharged his duties to the Board's satisfaction.

I have the honour to be,

SIR,

Your most obedient servant,

C. A. SAMUELLS,

Officiating Secretary.

A. E. deS —Reg. No. 1167J—60—27-7-85

A.
